TREMFYA withMe Access Program

Offers eligible patients IV induction and subcutaneous TREMFYA® (guselkumab) at no cost until their commercial insurance covers the medication. See program requirements below.

To be eligible, patient must have:

1. a TREMFYA® prescription for an FDA-approved use to treat ulcerative colitis
2. active commercial insurance with biologics coverage
3. a response from the commercial payer that TREMFYA® is not covered for ulcerative colitis when investigating the patient's insurance benefits **OR**
4. a delay of more than 5 business days or a denial of coverage from the patient's insurance carrier once a prior authorization has been submitted to commercial payer

In addition, for the patient to be eligible, the Prescriber must submit a TREMFYA® prescription to TREMFYA withMe to receive a coverage determination from the patient's insurance.

If the medication's prior authorization is denied, the Prescriber must also submit a letter of medical necessity or appeal to the patient's insurance within 90 days of when the patient begins subcutaneous TREMFYA® treatment to remain eligible for the program.

Patient is not eligible if:

1. patient uses any state or federal government-funded healthcare program to cover medication costs. Examples of these programs are Medicare, Medicaid, TRICARE, Department of Defense, and Veterans Administration
2. patient's coverage is denied due to non–FDA-approved use, missing information on prior authorization or coverage determination form, or invalid clinical rationale
3. patient is approved for commercial coverage of TREMFYA®
4. provider has not submitted an appeal within 90 days of when you become eligible for subcutaneous TREMFYA® coverage

The Program requires a periodic check of the patient's insurance coverage status to confirm their continued eligibility. The patient remains eligible for up to 3 years or until their commercial insurance covers the medication. Providers may re-enroll patients whose eligibility expires.

The program covers the cost of medication only—not associated administration cost. The patient cannot submit the value of the free product as a claim for payment to any health plan. Program is good only in the United States and its territories. Void where prohibited, taxed, or limited by law. The program may change at any time, including in specific states.

Janssen Patient Assistance Program

Your patient may be eligible to receive their Janssen medication(s) free of charge for up to one year if they have been prescribed a Janssen medication, have a financial hardship, and are currently enrolled in government, commercial, or employer group health insurance. Your patient must meet the eligibility and income requirements to qualify for the patient assistance program. Your patient is not eligible for free Janssen medication if their health insurance will cover the cost of their Janssen-prescribed medication if this application is denied. Some employers, insurers, and other companies force patients to apply for medically necessary medications from free product programs instead of covering such medications directly and immediately through insurance, which could lead to delays in care and discriminate against lower-income patients. These types of "Assistance Diversion Programs" are generally established by companies that profit by diverting resources away from patients in need. An Assistance Diversion Program is any insurer, employer, or third-party program that withholds coverage or payment for Patient's medically necessary drug until Patient has completed an application for free product assistance. Assistance Diversion Programs are prohibited by Janssen to make sure that help is available for patients with no safety net in place. Your patient's insurer must submit a Patient Eligibility Certification form to confirm that their drug coverage is not subject to an Assistance Diversion Program. Your patient may not seek payment for the value of Janssen medications received from this program from any health plan, patient assistance foundation, flexible spending account, or healthcare savings account. Before your patient enrolls in the patient assistance program, it is important they understand that they will be asked to provide personal information that may include their name, address, phone number, email address, financial information, and information related to their prescription medication insurance and treatment. This information will be used by Janssen Biotech, Inc., and its service providers to determine their eligibility for, enroll them in, and administer the program. The information will also be used to learn more about the people who use the program, to improve the program, and will be shared with service providers supporting the program. If your patient has Medicare Prescription Drug Coverage (Part D) they may be asked to attest to or submit a report from their pharmacy or an Explanation of Benefits (EOB) statement from their insurer that shows their out-of-pocket costs for the current year. To qualify for the program, 4% of the patient's gross annual household income must be spent on out-of-pocket prescription expenses for the patient and/or other members of their household. This program offer may not be used with any other coupon, discount, prescription savings card, free trial, or other offer. Offer good only in the United States and its territories. Void where prohibited, taxed, or limited by law. Program terms will expire at the end of each calendar year and may change or end without notice, including in specific states. Your patient may end their participation in the program at any time by calling 833-withMe1 (833-948-4631), Monday through Friday, 8:00 AM to 8:00 PM ET.
